## INTO WORKING ORDER

**Patriots Should Get Cuba's Government Machinery,**

**PAY AND DISMISS THE ARMY,**

**And Adjust All Differences Before Petitioning Uncle Sam For Absolute Freedom—Seaside Address to Cuban Assembly.**

Santiago, Nov. 1.—Senor Bartoli De Martismas of the Cuban provisional council has issued an address to the delegates now in attendance at Santa Cruz del Sur. The address in part is as follows:

"The Cubans accepted the assistance of America, although not knowing exactly what were the American aims, just as they would have accepted help from any country in their fight against Spain. As the contest progressed Cubans in the field were gratified to hear of a solemn desire by the United States congress regarding the intentions of the American government and the path they would follow in the Spanish-American war. America came to our help to compel Spain to relinquish her sovereignty over Cuba in order that the Cubans themselves might be placed in power and that they might have possession of the island, and have a government of their own. Therefore, the Cubans agreed to co-operate with the Americans, to obey orders issued by American generals and to help in all possible ways to establish a Cuban government wherever the Americans took possession.

"Though America did not recognize the government of Cuba, it was understood that the Cubans would not on that account abandon their organization, but on the contrary, the time would come when such recognition would be granted.

"Nevertheless, it has not been possible to establish direct relations between the Cuban and American governments for the transaction of public business, although the character of our relations throughout the war was friendly. But we have now reached a time when, even more than in the days of fighting, it is incumbent upon all Cubans to show true patriotism and which is making every exertion that America has given Cuba freedom and to make prompt arrangements for paying off the Cubans now in arms and for getting the country into working order."

### TRAIN DETAINED.

**Soldiers Prevent Railroad Men From Moving the Cars.**

Knoxville, Nov. 1.—There was quite a disturbance at the railroad station here about midnight.

A battalion of the Tenth colored cavalry was passing through on its way from the Philadelphia jubilee to headquarters at Huntsville, Ala., and at this point they refused to allow the train to proceed under the orders of the railroad authorities.

The officers of the battalion left the train at Knoxville to get something to eat, with instructions to the men not to allow it to leave the station until their return. The railroad officials wanted to move the train before the officers returned and the soldiers would not permit it. It is alleged by the railroad authorities that the officers went up town and remained away for an hour or more, leaving the train standing on the main track. The railroad people became impatient and attempted to move, but some of the troops boarded the engine and ordered the engineer not to start. The railroad superintendent then appealed to General McCook of the war investigating commission to interfere, but being a retired officer he referred them to the commanding officer of the post.

In the meantime the officers of the battalion returned and the train moved off. The soldiers complained to bystanders that the train was not properly provided for their convenience, and said this was the reason of the disturbance. This the railroad people deny.

### Carriage For Big Guns.

Cleveland, Nov. 1.—The Walker Manufacturing company of this city has just finished the first of the 11 carriages for the Buington-Crosier disappearing guns, for which it was awarded the contract last April by the government. A great many things about the big machine works with the smoothness and accuracy of clockwork, the carriage being turned in five seconds. The carriage weighs 107,000 pounds and the gun 32,000 pounds. Notwithstanding its great weight the gun is so balanced that it can be operated by hand if necessary. When finally mounted, however, all its movements will be controlled automatically, except the loading and aiming.

### Spain Indignant.

Madrid, Nov. 1.—The news that the Spanish peace commission at Paris had

referred to the government a formal demand of the American commissioners for the absolute cession of the entire Philippine group caused the greatest surprise in Madrid. The strongest feeling prevails that the government should protest energetically against what is regarded as a violation of the spirit of the protocol.

### War Investigators at Lexington.

Lexington, Ky., Nov. 1.—General Dodge, Colonel Sexton and Dr. Connor of the war investigating commission arrived from Chattanooga at 5 a. m. in General Dodge's private car. The members of the commission called upon Major General Wilson at corps headquarters down town, where, at 10 o'clock, a conference was held to map out the work in Lexington. Ambulances were summoned from Camp Hamilton and the commission started for the camp at 11 o'clock. Dr. Connor will make a thorough inspection of the division hospital, while General Dodge and Colonel Sexton make a tour of the regimental camps.

### Inspecting Camp at Knoxville.

Knoxville, Nov. 1.—The members of the war investigating commission started early upon the investigation of the camp at this place, with the hope of completing the entire work here, so as to enable them to start for Washington. They visited the general hospital and the Fourth Tennessee regiment as a body, and separated for the work in the other commands, General McCook taking the Second Ohio and Third North Carolina, General Wilson and Captain Howell the Sixth Ohio and First West Virginia, and ex-Governors Beaver and Woodbury the Thirty-first Michigan and Sixth Virginia.

### Dewey as Admiral.

Washington, Nov. 1.—Rear Admiral Miller will be placed on the retired list Nov. 22 and the vacancy thus created in the grade of rear admiral will be filled by the promotion of Commodore H. L. Howison, commandant of the Boston navy yard. Rear Admiral Bunce's retirement on Dec. 25 will make Rear Admiral Dewey the senior officer of the navy, and if congress revives the grade of admiral, as desired by Secretary Long, his appointment to that rank will follow without any further jumping.

### Called For Hampton Roads.

New York, Nov. 1.—A dispatch from Calmanera says the former Spanish cruiser, the Maria Teresa, which was sunk during the battle with Cervera's fleet and raised under the direction of Naval Constructor Hobson, has sailed for Hampton Roads. She is being towed by the Vulcan and Merritt, and is being conveyed to Cape May by the Cincinnati and the Leonidas.

### In Honor of Dr. Gibbs.

Washington, Nov. 1.—By direction of the president the general field hospital at Camp Hamilton, Lexington, Ky., has been designated as John Blair Gibbs, United States army, general hospital, in honor of Assistant Surgeon John Blair, United States navy, who died June 12, 1898, from wounds received in an engagement with Spanish infantry at Guantanamo.

### Trip of Two Battleships.

Washington, Nov. 1.—A cablegram received at the navy department announced the arrival at Bahia, Brazil, of the battleships Oregon and Iowa. The battleships will stop at Bahia for a few days and proceed to Rio, where they are to take part in the great demonstration there on Nov. 15 to commemorate the anniversary of the birth of the republic of Brazil.

### Colorado Volunteers Kick.

Denver, Nov. 1.—The following cablegram was received by Governor Adams from the regiment of Colorado volunteers in service at Manila. "Providing peace is declared, regiment earnestly desires recall. Rations insufficient; 15 per cent sick. Cheerfully remain for fighting; reluctant to serve garrison."

### Colonel Worth Rewarded.

Washington, Nov. 1.—The president appointed Colonel W. S. Worth of the Sixteenth infantry in the regular service and a brigadier general in the volunteer service, to be a brigadier general in the regular army, vice Coppinger, retired. General Worth was wounded at San Juan and will be placed on the retired list immediately.

### Can the Colon Be Raised?

Washington, Nov. 1.—The board of naval bureau chiefs have not undertaken to pass upon the attempts to raise other of the Spanish ships sunk July 3 than the Teresa. The majority of the board appears to favor the continuance of the work on the Colon until it is shown that the vessel can or cannot be raised.

### Light Batteries Assigned.

Washington, Nov. 1.—Orders have been issued by the war department assigning stations for the light batteries which are to arrive from Porto Rico, C and F, Third artillery, and D, Fifth artillery, will go to Fort Riley, Kan., and L, Fourth artillery, to Fort Sheridan, Ill.

## FAVOR DISBANDMENT

**And the Placing of Cuba at America's Disposal.**

**ACTION OF THE ASSEMBLY.**

**A Committee Appointed to Notify Washington of the Result of the Conference—Such Is the Text of a Havana Dispatch.**

Havana, Nov. 1.—The Cuban delegates to the general assembly now in session at Santa Cruz del Sur are said to be in favor of the disbandment of the Cuban army.

A majority of the representatives are also in favor of the dissolution of the Cuban insurgent government and the appointment of a commission to go to Washington for the purpose of thanking the American government for its intervention in favor of the Cubans, and to put themselves unconditionally at the disposition of the Washington authorities so as to enable the latter to develop their program without any hindrance.

The Cuban leaders, who will probably assemble at Marianao, are to be presided over by Manuel Sanguilly, who has been ill with fever for several days at Cienfuegos, on his way to Santa Cruz del Sur.

### Stay Away From Porto Rico.

Washington, Nov. 1.—The following report from Mr. Hanna, American consul at Porto Rico, will be of interest to persons contemplating migrating to that island: "I am convinced that young men seeking work or positions of any kind should not come to Porto Rico. Such persons as clerks, carpenters, mechanics and laborers of all grades should stay away. No American should come expecting to strike it rich, and no persons should come here without plenty of money to pay board bills and have enough to take them back to their homes in the United States. There are several hundred thousand working Porto Ricans ready to fill all vacant jobs and at a low price."

### Will Benefit Importers.

Washington, Nov. 1.—Ambassador Hitchcock, at St. Petersburg, has been in communication with the state department regarding the establishment of steamship communication between the United States and Russia with a view to an increase of trade between the two countries. Arrangements have been made with the United Steamship company of Copenhagen to establish a line direct between Russia and the United States. The vessels will make experimental runs between St. Petersburg and New York. The advantage to importers will be in cheaper freights and avoidance of transshipments.

### Senator Hanna's Views.

Cleveland, Nov. 1.—Senator M. A. Hanna, discussing the probable result of the coming state election, said: "I am of the opinion that the Republican majority in Ohio will not be as large as it was in 1896, and I believe there will be a slight falling off from last year's figures. The reports from the state committees are very favorable, however, and I am sure that the party will be victorious in this state."

### Treachery Charged.

Williamsport, Pa., Nov. 1.—More fuel was added to the flame of Pennsylvania's furious campaign, when Mr. Silas C. Swallow, "the honest government" candidate for governor, boldly charged the Democratic state chairman, John M. Carman, had made a proposition to United States Senator Quay to "sell out" the state Democracy. In support of his accusation Dr. Swallow produced affidavits.

### Now For the Canal.

Managua, Nicaragua, Nov. 1.—After four days' public discussion the Nicaraguan congress has unanimously approved of the agreement provisionally made, between President Zelaya and the American contractors and engineers authorizing the construction of an interoceanic canal and empowering the concessionaries to negotiate with the Maritime Canal company.

### Fears of a Marine Disaster.

St. Johns, Nov. 1.—Three fishing vessels, homeward bound from Labrador, with crews aggregating 120 persons, are now much overdue. Since the recent gales the wreckage of a schooner has been found strewn along the coast and it is feared that she was one of the belated vessels. Arrangements are being made to despatch a search steamer.

### Paper Man Falls.

New York, Nov. 1.—Joseph D. Godfrey, proprietor of a paper mill at Rauberville, Northampton county, Pa., with offices in Boston and this city, has filed a petition in bankruptcy in which he places his liabilities at \$250,000, assets \$35,000.

### A CLEVELAND COUPLE

**Tie Themselves Together and Jump Into Lake Erie.**

Cleveland, Nov. 1.—A desperate attempt to commit suicide was made by Rose Laurer, 22, and J. E. Cleckner, 32. The couple walked out to the end of the dock of the Cleveland Yacht club, at the foot of Erie street, and tied themselves together with strips torn from a bed sheet. They then jumped into the lake.

The Lake Shore railroad detectives were in the vicinity and witnessed the act. They at once ran down and dived into the icy water after the couple.

The man and woman had already sunk several times, but were finally rescued after a long struggle on the part of the detectives. Both were taken to a hospital.

Cleckner is a conductor on the Cleveland and Pittsburgh road. Beyond saying that they were tired of living, the couple would give no reason for their attempted suicide.

### Middle-of-Roaders Barred Out.

Denver, Nov. 1.—The time allowed by the law for making changes in the state tickets expired at midnight. The middle-of-the-road Populists will have no state ticket, the court deciding at the last moment that the party has no standing. There are 10 state tickets, but only four candidates for governor. Charles S. Thomas, Democrat, heads the Democratic-Peoples party; Teller, Silver Republican, National Populist and Liberty Union tickets; Henry B. Wolcott heads the Republican, Silver Republican (anti-Teller) and Western Republican tickets. The other two candidates for governor are Robert H. Rose, Prohibition, and Nixon Elliott, Socialist-Labor.

### About New Guns.

Washington, Nov. 1.—Orders have been given Commander E. C. Pendleton, superintendent of the gun factory, to proceed to England and inspect the newest methods pursued there in the construction of guns, mounts, torpedo tubes, etc. Wire wound guns, which have been so successfully developed for the English navy, will be carefully examined by the visiting officer. He will also investigate under-water discharge tubes for torpedoes for the battleships Maine, Missouri and Ohio, and the latest improvements of the 6-inch rapid-firing gun. In this gun the powder and projectile are separated.

### Two Strike Leaders Shot.

Washington, Ind., Nov. 1.—Richard Reibmeister and Lon Ragsdale, coal strike leaders, have been shot by Austin Kocher, a nonunion miner, who claims Ragsdale tried to hit him with a brick and that Reibmeister offered to strike him. Kocher fired five shots, two of them taking effect in Ragsdale's neck and one in Reibmeister's side. Ragsdale is seriously hurt. Kocher was arrested. It is feared the affair will cause fresh trouble between the strikers and nonunion miners.

### Tax Law Sustained.

Washington, Nov. 1.—The United States supreme court announced its decision sustaining the constitutionality of that feature of the tax laws of New York which lays a tax on foreign corporations doing business in the state, according to the capital employed. The case was instituted against James A. Roberts, comptroller of the state of New York, to test the law and to vacate an assessment made on the capital of a large western drug house having a branch in New York city.

### New French Cabinet.

Paris, Nov. 1.—The new cabinet is constituted as follows: M. Lebreton, minister of justice; M. Dupuy, premier and minister of the interior; M. De Freycinet, minister of war; M. Lockroy, minister of marine; M. Delcasse, minister of foreign affairs; M. Peytral, minister of finance; M. Leygues, minister of public instruction; M. Deloncle, minister of commerce; M. Guillaumet, minister of the colonies; M. Viger, minister of agriculture; M. Krantz, minister of public works.

### Stoneware Trust.

Akron, O., Nov. 1.—Success has at last crowned the efforts of the promoters of the combination which has for its purpose the control of the production of white, black and salt-glazed stoneware in the United States and the fixing and maintaining of prices. Three meetings recently held in Chicago, Cleveland and Akron resulted in a trust being formed along the lines of the nail trust. Twenty-six concerns are interested in the combine.

### Victim of Lockjaw.

York, Pa., Nov. 1.—Corporal William Mugridge, a member of the Second regiment of West Virginia volunteers, died at the City hospital. Death was caused by lockjaw. Corporal Mugridge went to the hospital on Oct. 6.

### Andy Martin Dead.

London, Nov. 1.—Helen Faucit (Lady Martin), the celebrated English actress, who retired from the stage many years ago, is dead. She was born in 1820, and was married in 1851 to Sir Theodore Martin.

## NEGROES AND WHITES.

**Fears That They Will Meet In Mortal Combat.**

**POLITICS GENERATES STRIFE**

**Should Blacks Place a Separate Ticket In the Field, as They Threaten, There Is No Telling How It All Will End.**

Wilmington, N. C., Nov. 1.—Notwithstanding the more peaceful outlook that has prevailed since the past two days, the feeling of unrest begins to show itself again.

There is a disquieting rumor that the negroes are seriously considering the question of running a county ticket regardless of the wishes of Governor Russell.

The unexpected arrival of Governor Russell here gives rise to the hope among conservative people that Russell has heard of the movement of negroes to place a ticket in the field and has come here to suppress it if possible. There is little doubt that if a Republican ticket is brought out for county officers, the situation here will become more serious than ever. The Democrats have carried out their part of the arrangements made with the governor by choosing their candidates for the lower house of the legislature and they are furious over the talk of a negro county ticket. An editorial in a negro paper is considered a positive indication that the negroes do not consider the question of a county ticket finally settled.

### IN REBELLION.

**Troops May Be Called Out to Settle a Judicial Dispute.**

Charleston, W. Va., Nov. 1.—A serious clash between federal and state judicial authorities is expected here. Maynard F. Stiles, attorney for Henry C. King of New York, obtained from the United States circuit court here an injunction to prohibit the sheriff of Logan county from selling the land of his client for taxes.

Judge Doolittle of the circuit court of Logan county issued a rule against Stiles for contempt. After hearing Stiles' answer to the ruling, Judge Doolittle committed Stiles to jail to remain there until injunction proceedings in the federal court were dismissed. Stiles was placed in the county jail and an application was made to Judge Jackson for a writ of habeas corpus, which Judge Jackson issued, and a deputy marshal was sent to bring Stiles before the federal court.

The sheriff and jailer refused under instructions from Judge Doolittle, to deliver the prisoner to the United States officers, and the officer having reported to court, Judge Jackson was asked to issue a writ of attachment against the sheriff and jailer, the effect of which was to bring these officers with their prisoner before court. Attorney General Rucker of this state requested Judge Jackson to delay issuing the writ until he can communicate with Judge Doolittle, which Judge Jackson agreed to do. If Judge Doolittle refuses to give up the prisoner an attachment will be issued, and if the United States officers are resisted, United States troops may be called on to suppress the rebellion.

### To Attack Goebel Law.

Frankfort, Ky., Nov. 1.—The brief of the attorney general in the Goebel election law contest case has been prepared for filing. The principal claims of the attorney general as to the unconstitutionality of the law are that it conflicts with the section of the constitution which provides that all elections shall be free and equal. Another contention in the brief is that the law denies to the people the right to select the county officers, thereby destroying the principle of local self-government.

### Over an Embankment.

St. Paul, Nov. 1.—The special naval train was derailed east of Rat Portage by a broken rail. The tender, two baggage cars and three colonist cars went over the embankment, 10 feet high. Frank Fleckney and William Miller, boys from the training ship Agincourt of Chatham, England, were killed. Samuel Harrison, stoker, of Edinburgh, and Thomas Burns, seaman, were injured; also a man named Smith, who was stealing a ride.

### Lawton's New Place.

Washington, Nov. 1.—Major General Henry W. Lawton, recently in command at Santiago, has been ordered to command the Second army corps, relieving General Graham, recently retired.

### Passed Cape Mays.

Washington, Nov. 1.—A telegram has been received at the navy department stating that the Maria Teresa passed Cape Mays, Cuba, going at the rate of six knots under her own steam.

### .....DEMOCRATIC TICKET.....

FOR CONGRESS.  
MORDECAI WILLIAMS,  
of Boyd County.

DEMOCRATS, let nothing, that can be overcome, keep you from the polls next Tuesday.

EVERY Democrat who has the future welfare of the party in Mason County at heart will turn out next Tuesday and vote for the nominee.

MARSHALL FIELD, Chicago's great merchant, says the Dingley law is a flat failure from both a political and economic standpoint. This is the opinion of a close student of affairs, and a practical business man, one of the greatest merchants in the world.

It seems that Abner McKinley, brother of the President, has been making a good thing out of army contracts. The accusation is openly and boldly made by William Aster Chanlor, Democratic candidate for Congress in one of the districts in New York City, a wealthy and responsible gentleman. In a speech in his district, Chanlor said:

I know that Brother Abner, as counsel for the firm that supplied the army clothing, made a pot of money. I wore some of that clothing and it was as bad as it was possible for it to be.

THE Baltimore Sun that helped elect President McKinley has become greatly displeased at the way he has managed affairs and is now just as strongly opposing him. The Sun says there are unmistakable indications that what happened in 1890 may happen in 1898. The thing that happened in 1890 was a rousing Democratic victory in the middle of Harrison's administration. The Sun says: "Democrats were amazed at the extent of a victory which they did not anticipate and had done little to deserve. Republicans were simply dumfounded at the manifestation of popular disappointment and disapproval of the results of President Harrison's administration and the Republican victory of 1898." This is what the Sun thinks is going to be repeated this year. And why? Because, according to the Sun—

Nothing has been done under Mr. McKinley's administration to settle the monetary issue upon which he was elected. He has ignored it in his messages. The Republican Congress, elected on the same day and on the same issue, has ignored it. The only step taken by the President himself was to send to Europe a futile "commission"—the President's refuge seems to be always in "commissions"—to try and negotiate an international agreement in favor of bimetalism. As against this purely negative action in the direction of monetary reform we have as the fruits of Mr. McKinley's administration the Dingley tariff, the war with Spain, a revival of war taxes, and all the embarrassments resulting from the annexation of Hawaii, the capture of Porto Rico, and the as yet unexplained designs of the administration in regard to Cuba and the Philippines. In addition to all this have been the scandals and the complaints growing out of the misconduct of the war, the feebleness and incompetency of the War Department, and the consequent sufferings and ill treatment of our soldiers in camp, on transports, in hospitals, and on the field.

### NEXT SEASON'S WHEELS.

Big Drop in Prices Agreed on By Manufacturers.

[New York Evening Journal.]

Here is the schedule of bicycle prices determined upon to-day for high grade wheels for next season:

Chainless, \$75; tandem, \$75; 30-inch, \$60; 28-inch, \$50.

Other wheels by the leading makers will be put on the market for \$40, \$35 and \$25, but the prices for the best grades, the manufacturers say, will not be cut during the season of '99.

With chainless wheels at \$125 the sale was very limited this season, but the cut in price is expected by the manufacturers to result in a heavy demand for them next year.

The 30-inch wheel is built to meet the demand by tall men. It is practically the only novelty of moment that will be seen next year, the other changes in the '99 models being largely a matter of finish and minor details.

### Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there is no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me now strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at J. J. Wood & Son's drug store. ## RETIRE MR. PUGH.

A Republican Says That's What His Party Should Do.

Gives Reasons Why Many of His Fellow Republicans Won't Support the Nominee.

[A Life Long Republican in Catlettsburg Democrat.]

Public servants who are not governed by integrity will be untrue to their trusts, whenever occasion promises to gratify their ambition or result in their pecuniary profit. Mr. Pugh has not been true to his friends or his promises, except when he thought it would result in getting him retained in office. In the Republican convention in this (Boyd) County four years ago to elect delegates to the Congressional convention at Augusta, Mr. Pugh's friends could be counted on the fingers of one hand and then have some fingers left. The few friends he had acted as the leaven in the measure of meal, until the whole lump was leavened; and in the election of 1896, Mr. Pugh received a majority of nearly 800 in this good county of Boyd.

We can not look upon a really great and good man without advantage to ourselves; and the more we study him the greater will be our profit. He is the living light-fountain which is good and pleasant to be near. When it is possible we should elect men of that kind to fill all high places of trust. When we can not do that we had better not vote at all. A man like our President, that all his party adores, and a man that none can speak evil of. Like the old Virginia Democrat, who, out of curiosity, went to see Lincoln, as he returned home said, "If all Republicans were like him I'd be a Republican."

How is it with our candidate, Mr. Pugh? The people all think, and some of them say, "If all Republicans were like Pugh I would not be a Republican." It would be hard to find seven men in Boyd County that will vote for Pugh for Pugh's sake; but all who express themselves say it is for the sake of the party, or to endorse the administration. Every time we elect a man of this kind to Congress, knowing him to be such, we do our party a hurt, that will tell in future elections. Causes of defeat might often be traced back to where they originated in victory, when some wish-a-washy, back-bone-less man was elected. The defeat of Pugh in November means thousands of votes for McKinley in 1900.

Men of all parties like candidates with convictions. If he is a Democrat then he is expected to be full-blooded and thorough. If a Republican he is expected to be true to the principles of the Republican party. Mr. Pugh doesn't stand up to the first principle of Republicanism. He does not exercise the power lodged in a Representative elected by the people; but shifts that responsibility on to committees, whether it is their will or not, and then connives with the committees to get them to do what he wanted done, but did not have the courage to do. His actions are not democratic. He will not let the people "exercise the power of sovereignty in person." He would not let the Republicans vote on questions after he and the committee had refused to act, for the reason as he said "that it would ruin the party," and in some instances the will of the people was defeated. He refused to let Republicans vote on an important question, and now many of them will refuse to vote for him.

The old time rhyme is appropriate at this time:

A man of words and not of deeds  
Is like a garden full of weeds,  
When the weeds begin to grow  
It's like a garden full of snow.

Mr. Pugh is a man of many, many words—kind words—words that make one believe he has almost got what he wants, but when the time comes for you to pluck the plum, you find the garden is full of weeds, and if you insist on his handing over the fruit you find him cold as a garden full of snow and he will refer you to his "advisory board," whom he has gulled into taking the responsibility, and who now bears the blame for the wrongs inflicted on confiding disappointed friends. He would look you in the face so lovingly and say "I will do all I can consistently," but he never finds it "consistent" to do anything. The records do not show but one man that went to him but was promised the desire of his heart, and only in one instance was there anything of value given, and that was at Pollard when he gave a voter a nickel's worth of candy for his "dear little children."

Many Republicans say they do not want to vote for Pugh, but then they do not like to see a Democrat get in. Mr. Pugh has no objections to Democrats being in office, and through his arrangement one of the best Republicans in the State was put out of the postoffice at Ashland in order to retain a dyed-in-the-wool Democrat, one who is as true a Democrat as Mr. Williams could be. At Catlettsburg, Mr. Pugh let a Democrat

keep the postoffice as long as he would have it before he would have a Republican appointed; and now if a Democrat is elected to Congress it will be Pugh's fault and he will have no committee to put the blame on.

Joe Salmon has been the acting Congressman in this district, and there has not been a single appointment made in the district unless it met the approbation of Joe Salmon, and the Republicans think if he is doing the business he is the one to be elected.

It is a pleasant duty as well as a high privilege to retire Mr. Pugh to private life. The Republican party in this district has been badly damaged by his actions during his two terms and another term would about ruin the party. His ingratitude and unfaithfulness to friends, his incapacity, unreliability, deceitfulness, and disregard for his promises has made him obnoxious to Republicans and the sooner the party unloads the better.

### When Hungry in China.

There was a painful lack of variety in our food. Men dying of thirst spend their last hour in thinking of iced champagne, sherry cobbler, cocktails and drafts of beer, whiskies and sodas, dead horses' heads or whatever their particular beverage may be. We gastronomically fooled ourselves to the top of our bent. "I think," one would say, "when we get to the Hotel de Paris to-night we'll have a nice little French dinner of six courses, with coffee and green chartreuse to wind up with." "Well," another would remark, "I should be content with some soup, a little fish, a slice of beef and some tart." "Chops and tomato sauce for me," murmured a third, oblivious of the fact that befell Mr. Pickwick, who had a similar desire.

Then we would reach a slimy, begrimed village, creep into a smelly but and make our dinner of pork and rice, or rice and pork when we desired to vary the menu. But one night, at a spot called Tai-ping-pu, when we called for the perennial pork we were informed we could not be supplied. "No pork," we exclaimed, "no pork in China! Why, Chinamen are three parts pork." Then we were told we were in a Mussulman village, where swine were an abomination, but we could have salt beef. We jumped joyfully at the salt beef, so called, though we knew perfectly well it was nothing else but stale, unprofitable, sinewy wild goat.—Travel

# Black Goods.

The most effective advertisement we can write for the new black goods is "come and see." What only color is becoming to all complexions? "Black." What only color is suited to every season? "Black." What only color is suited to tall or short, stout or slender people? "Black." That's just what we've been thinking as we surveyed our stock of new black goods, and you'll endorse our meditation. We can't prevent the price uprightness that's coming, but we can help you skip it if you share the good fortune while these last.

**\$1.50 BLACK GOODS AT \$1.00.**—Mohair and Wool figured goods, forty-two inches wide. Made by Priestley, one of the fountain heads for best black goods. One style is a cluster dotted design on crepe ground. Other styles have crepe figures of Mohair in silken effects; very striking, ten styles.

### Lightning's Assaults.

One of the best evidences of the value of lightning rods up to date has been afforded by the Washington monument. It is capped by a small four sided pyramid of aluminum, which metal, so cheap today, was very costly at the time of the building of the greatest obelisk that the world has ever known. This aluminum tip is connected with the ground by four copper rods which go down deep into the earth. On April 5, 1885, five immense bolts of electricity were seen to flash between the monument and a thundercloud overhanging in the course of 20 minutes. In other words, the monument was struck fiercely five times, but it suffered no damage whatever.

On June 15 of the same year a more tremendous assault was made upon the monument from the heavens, and the result was a fracture of one of the top-most stones. The crack still remains to show what nature can do in the way of an electrical shock, but the slightness of the damage is evidence of man's power to protect himself from such attacks. The obelisk is ideally located for attracting electrical assaults from the skies, and yet, while many times hit, it has suffered only once, and that time to a trifling extent.—Boston Transcript

### A Vineless Sweet Potato.

LAWRENCEBURG, IND., October 30.—William Weatherholt, a progressive farmer, has succeeded in propagating a new variety of sweet potato that is much superior to the kind now generally grown. The new variety is vineless and quite prolific as all the growth goes into the tuber and but little strength of the plant is expended in useless vines. The top of the new potato is not much larger than a man's fist and from five to a dozen potatoes grow in the hill of exceedingly fine flavor. A number of farmers in this vicinity will adopt the new variety next year.

#### MR. JACOB OUTTEN.

One of Maysville's Oldest Citizens Passed Peacefully Away Shortly After 9 O'clock Last Night.

The venerable Jacob Outten, whose serious illness had been mentioned the past few weeks, died last night at ten minutes past 9 o'clock at his home on West Second street. His health had been failing for a year or so, as a result of disease of the kidneys, complicated with other troubles. His strong vitality enabled him, however, to keep up and about his home and workshop almost to the very last, and only a few minutes before his death he was able, with a little assistance, to sit on the side of his bed. His relatives who were with him noticed no alarming change in his condition, but shortly afterwards, as he sank back on his pillow, there was a deep sigh, a feeble gasp and the spark of his earthly life had gone out forever.

Deceased was one of Maysville's oldest native citizens. He was born in a house where the German Church now stands, nearly opposite his home, and was eighty-three years of age on October 20th. His father was Isaac Outten, who came to Maysville from Virginia. Deceased was never married, and his nearest relatives are his nephews and nieces, Mrs. S. B. Chunn and Mr. Sam. Outten, of this city, Mrs. Emily Beach, of Aurora, Ind., and Mr. Ephraim Outten, of Princeton, Ky. The late C. D. Outten was also a nephew. He leaves other nephews and nieces who reside at a distance.

Deceased was initiated into DeKalb Lodge No. 12, I. O. O. F., in 1844, and, in point of age, was probably its oldest member. He was also one of the oldest members of Washington Fire Company. A man of strict integrity and industrious habits, Uncle Jake, as he was called, was a friend to all, and enjoyed the good will and friendship of the community in which he had long been a familiar figure. The funeral will occur Wednesday afternoon at 2 o'clock at the residence of Mrs. C. D. Outten, 247 West Third street, under the auspices of DeKalb Lodge of Oddfellows. The religious services will be conducted by Rev. J. O. A. Vaught, of the M. E. Church, South. Burial in the Maysville Cemetery, with the honors of Oddfellowship.

**The Hour of Lincoln's Shooting.**  
A highly interesting story is told to account for the fact that almost every wooden clock in America has its hands painted to indicate the hour of 18 minutes past 8. It is related that most such watchmakers' signs were originally made by one man, who was at first in the habit of painting the hands to indicate any old or young hour that struck his fancy when he came to that part of the job. But when President Lincoln was assassinated he conceived the idea of commemorating the event by recording the hour and minute thereof upon all his wooden timepieces, a custom ever since perpetuated. There is something striking and dramatic about this notion of time standing still forever after an event of such tragic significance. There is no doubt about the fact that nearly all the wooden clocks do indicate the hour of 18 minutes past 8. You can see that for yourself. But if the clockmaker thought he was thereby recording the hour of the assassination his intelligence was as wooden as his wares, for President Lincoln was shot not at 18 minutes past 8, but at about 15 minutes past 10.—New York Post.

**A Timely Event.**  
The bell at the parsonage went ting-a-ling, and, as the dominie was in his study and his wife getting the baby to sleep, Master Harold, aged 7, went to the door. On opening it he found a couple, evidently from the country, both young and bashful; but, after looking at the boy a moment, the young man queried, "Is the parson to home?" "Yes," said Harold. "Do you want to get married?" "That's just what we're here for," said the prospective bridegroom as he looked fondly at the blushing girl by his side. "Well, come right in, then," said the boy, ushering them into the parlor, and when they had seated themselves on the edge of two chairs side by side he started off, saying: "I'll call pa, and ma too. She'll be awful glad, for she has all the marryin' money, and I heard her tell pa this mornin' that she wished some folks would come to get married, 'cause she hadn't 'nough money to buy her new hat."—Chicago News.

**Housekeeping.**  
If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten, comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually resorts upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

**Blue Stockings.**  
According to an English magazine the appellation "blue stockings" originated in the dress of a Benjamin Stillingfleet, grandson of the bishop, as he used to appear at the parties of Mrs. Montague, in Portman square. He used to generally wear blue worsted stockings, and he was a very amiable and entertaining man. Whenever he was absent from Mrs. Montague's evening parties, as his conversation was very interesting, the company used to say, "We can do nothing without the blue stockings." By degrees the assemblies were called "blue stocking clubs" and learned people "blue stockings."

**Excessive Coffee Drinking.**  
The Moors are inveterate coffee drinkers, especially the merchants, and they sit in their bazaars and drink continuously the whole day long. It has been noticed that almost invariably, when these coffee drinkers reach the age of 40 or 45, their eyesight begins to fail, and by the time they get to be 50 they become blind. One is forcibly impressed by the number of blind men seen about the streets of the city of Fez, the capital of Morocco, and this is invariably attributed to the excessive use of coffee.—New York Ledger.

**LOUISVILLE TOBACCO MARKET.**  
Quality of the New Burley Offered is Very Common—The Crop Seems Badly Damaged by House Burn.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]  
Sales on our market for the week just closed amount to 1,009 hhds., with receipts for the same period 329 hhds. Sales on our market since January 1st amount to 90,145 hhds. Sales of the crop of 1897 on our market to this date amount to 73,400 hhds.  
Up to this date 118 hhds. of new burley tobacco have been sold on our market, and of this number 51 hhds. sold at prices ranging from \$6 to \$10 per hundred.  
The quality of the new burley being offered on our market continues very common and generally in bad condition, and the prices obtained do not furnish a basis for determining what prices will be current when the better crops come forward. As the season advances it becomes apparent that the damage to the crop by house burn and mould is much more serious than was estimated a few weeks ago.  
As regards the old crop, the better grades of red fillers selling between \$10 and \$11 have been more active and a little stronger the past week. The other grades remain about as they have been for the past few weeks.

**Special Election!**  
STATE OF KENTUCKY.  
MASON COUNTY, KY.  
April Term, August 9, 1898.  
Whereas, It is the sense of the Fiscal Court of Mason County that sixty thousand dollars in 4 per cent. bonds should be issued by said county with which (the proceeds thereof) to purchase and make part of the free turnpike system of the said county the following named turnpike roads, that is so much of said roads as may be situated in Mason County, viz: Maysville and Lexington, Maysville and Mt. Sterling, Mason and Bracken, Helena, Dover and Minerva, and Mayslick and Lexington, and so part of said bonds to be issued, unless the Maysville and Lexington, Maysville and Mt. Sterling, and Mason and Bracken roads can be simultaneously purchased wholly from the proceeds of said bond issue, after deducting therefrom the several amounts agreed by this court to be paid for the three other above named roads, viz: The Helena, the Dover and Minerva, and the Mayslick and Helena; the whole amount to be paid for the aforesaid six roads not to exceed (\$60,000) sixty thousand dollars. Be it therefore ordered by this court that an election be called and held in Mason County on the day of the next regular election to-wit:

**NOVEMBER 8, 1898,**  
and that a poll be opened in each of the respective voting precincts in said county for the purpose aforesaid; the proposition to be submitted to the voters in the form of the question to be printed on the ballots to be used at said election, to-wit: "Are you in favor of issuing bonds for the purchase and maintenance of the turnpike roads of this county, free of toll to the traveling public?" And the Sheriff of Mason County is directed by this court to advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county, and also by printed handbills posted up at least four public places in each voting precinct in the county and at the court house door.

I, C. L. Wood, Clerk of the Mason County Court, do hereby certify that the foregoing is an exact copy of the order of the Mason Fiscal Court made as it appears of record in Order Book No. 2, page 74, Mason County Fiscal Court Records.  
Given under my hand this August 10th, 1898.  
C. L. WOOD, Clerk.  
By A. F. WOOD, Deputy Clerk.

In compliance with the above order of the Fiscal Court of Mason County, Kentucky, I, S. P. Perrine, Sheriff of the said county, will, at the next regular election held therein, on

**TUESDAY, NOVEMBER 8, 1898,**

open a poll at each and all of the voting precincts in said county, and hold an election therein, for the purpose of taking the sense of the qualified voters of said county as to whether the county of Mason, State of Kentucky, shall, subject to the conditions of the foregoing order of Mason Fiscal Court, issue bonds to the amount of sixty thousand dollars (\$60,000) bearing 4 per cent. interest, the proceeds of said bonds to be used for the purchase of the Helena turnpike road, the Dover and Minerva, the Mayslick and Helena and the Mason and Bracken turnpike roads, and so much of the Maysville and Lexington and Maysville and Mt. Sterling turnpike roads as may be wholly situated in Mason County. All legal voters in said county shall be privileged to vote at said election. The same officers that hold the regular election shall hold this election, which shall, in all respect, be held in accordance with the general election laws of this State.

Witness my official hand, this October 3, 1898.  
S. P. PERRINE,
